Dr. Lee Hazen Joins the Instructor Faculty for Cox® Technic

Released June 1, 2007

F/D Enterprise LLC proudly announces the addition of Dr. Lee Hazen of Wildomar, California, to its faculty of instructors for Cox® Technic. Hand-selected out of school to be a resident with Cox® Technic's innovator, James M. Cox, DC, DACBR, Dr. Hazen is one of only a few residents Dr. Cox trained personally. As a resident, Dr. Hazen learned Cox® Technic, its proper application as well as the office protocols appropriate for running a chiropractic clinic devoted to the care of spine pain patients treated with Cox® Technic. Upon completion of his two year residency, Dr. Hazen was invited to stay as associate and then partner until his return to his home state of California in 1998. Cox® Technic with its related protocol is the way Dr. Hazen started practice and continues to practice today. He is excited about the opportunity to share his experience with his colleagues.

During his time with Dr. Cox, Dr. Hazen taught as an assistant instructor and then lead instructor for hands-on workshops held in southern California when he returned there. He will now be lead instructor of the Cox® Technic Part 1 Certification Courses.

Once again, Dr. Hazen is hand-selected by Dr. Cox, but this time to join fellow instructors H. Joseph Dunn DC DACBN, George Joachim DC CCRD, Ralph Kruse DC DACBO, and Jeff Shurr DC in teaching chiropractic physicians and students the Part 1 Cox® Technic courses. Their attendees will be qualified then to attend and take the certification exam at the Part 2 Certification Course.
